

## NEW CREAMERY AND CHEESE FACTORY FOR WETASKIWIN

Wetaskiwin Creamery Company Limited being Formed.  
Equipment will be Most Up-to-date and Capable of  
Handling all Business Offered. Will be Boon to  
the Dairy Industry in the Community.

A movement was started a few days ago in the city and community having for its object the erection of one of the most up-to-date creameries and cheese factories in the province of Alberta. Wetaskiwin has always taken the foremost place in the dairy industry in Central Alberta, and it is only natural that the dairymen and farmers should desire to have one of the best buildings and plants in the world.

It is planned to erect a fully modern building on the site of the E.C.D. on Bayview street west. The building will be 100x45 feet, and will be constructed of brick and hollow tile walls and cement floors, thus it will be made as sanitary as possible. The machinery will be fully modern and the best that can be purchased. The equipment will be of such a nature that the cream and the finished product as well, can be handled with the least effort and minimum of expense. The equipment will be large enough to take care of all the business that will be offered in this district.

The contract for the erection of the building has been awarded to Mr. T. Watt, of Edmonton, and the work has commenced and will be rushed to completion as early as possible.

A sum has been bank on the part and an excellent supply of water was struck at 175 feet. The charter has been issued to the new company, the name being The Wetaskiwin Creamery Company Limited. It is capitalized at \$25,000.00, and the shares are sold at \$50.00 each on reasonable terms of payment. The shares may be procured from Mr. George J. McNeil, of the Wetaskiwin branch of the B.C.D., or from any representative of the company, who are representing the community.

We understand that a large number of shares have already been sold to producers, and it is expected that the stock will be sold in the very near future. When the stock is disposed of, a meeting will be held of all share-holders for organization, election of officers, etc.

The formation of this company with the new building, should be a boon to the dairy industry in this community, and will be of great benefit to the city of Wetaskiwin.

As the new government regulations providing for the closing of all buying stations went into effect on Monday last, it will now be in the interests of the producers to patronize home trade.

### PEASANT SURPRISE AT BIRTHDAY PARTY

An enjoyable party was held at the home of Mr. and Mrs. Wm. Kaiser on April 23rd, when a large number of the neighbors and friends assembled to do honor to the 35th birthday of Mrs. Kaiser.

The party was a success, and the evening was spent in music, song and other amusements. Mrs. Kaiser was the recipient of a lovely spoon tray, the gift of her friends. Among those present were Mr. and Mrs. Hermann Westendorf, Mr. and Mrs. George Westendorf, Mr. and Mrs. George and Mrs. Louis Wotz, two children; Mr. and Mrs. Albert Fehlberg and child; Mr. and Mrs. F. Fehlberg and seven children; Mr. and Mrs. Gust. Fehlberg and child; Mr. and Mrs. Gus. Foth and five children, while several others joined the party in the evening. Before dispersing, the friends joined in wishing Mrs. Kaiser many happy birthdays.

A concert was given in the Parish hall on Friday evening last, under the auspices of the Women's Auxiliary, when the vocalists of the city gave an excellent entertainment. The program concluded with a drama, which was well rendered by Mrs. James and Miss Macfarlane. Mrs. James also gave a couple of readings, which were greatly enjoyed.

### FROM THE EDMONTON JOURNAL FILES OF 1905

May 2.—The legislature passed the bill incorporating Wetaskiwin as a city, and by so doing gave the first city the distinction of being the first city incorporated in the Alberta legislature. The member for that constituency, Mr. Rosenblatt, was called on for a speech, and in a pleasing manner thanked the house, concluding by inviting the members to a drive through the fertile lands of Wetaskiwin district.

## GOOD ROADS ASSOCIATION HOLD SUPPER

The citizens of Wetaskiwin and community again are reminded of the supper to be given at the Driad hotel banquet room on Friday evening of this week, at 6:30 sharp, when a general discussion will take place as to ways and means of improving the condition of the roads in this district. The meeting is being held under the auspices of the Wetaskiwin branch of the Alberta and Good Roads Association of Alberta.

It is expected that ten or twelve citizens of Edmonton will attend the supper, and will take part in the discussion. If the weather is favorable, it is the intention of the Edmontonians to visit the well of the Mutual Oil & Gas Development Co., Limited, during the afternoon.

Every citizen should attend this meeting, and express the appreciation of a movement to improve the roads in this community.

**\$25,000 FIRE AT  
ROCKY MOUNTAIN  
HOUSE IN NIGHT**

Rocky Mountain House, May 2.—A fire broke out shortly after 3 o'clock in the morning, and was started by Mrs. J. Nightingale, and spread to the Bert Vandauers rooming house and to the Club cafe. All the volunteer help concentrated their efforts on the forestry office so that the flames would not catch Brehm's shoe shop, Fong's restaurant, Gray's pool room, Birt's barber shop, Brown's store, and on to the Mount View hotel, which was the only one left in the northeast, saving the men in their batte, but seriously endangering the home of Walter Strong. Daves' shop and the home of Mrs. Martha Goode and Ruth commenced to fall at 5:15, and extinguished all the flying embers.

### DAYLIGHT SAVING IS DEAD ISSUE IN WESTERN CANADA

Toronto, May 3.—Daylight saving went into effect in various Canadian cities on Friday night. Montreal, Ottawa, and the Maritimes went into the new time at midnight, April 30th, following the city of New York, and other United States cities which put their clocks forward on Saturday at midnight. It is notable that except in the city of Regina, daylight saving high jump, and not, put three potato race world records into effect.

### ERMINESKIN TUXIS BOYS COMPETITION

The Ermineskin Tuxis Square competition on Saturday last in the great national athletic competition of Tuxis boys. The events in the competition were standing broad jump, running high jump, and not, put three potato race world records into effect.

### ALBERTA'S GAS TAX IN EFFECT

Toronto, May 3.—Gasoline now sells at two cents a gallon more than it did at the end of April, the extra cost being put on to cover the provincial tax on gasoline sold in the province. This tax was introduced by the government during suggestions brought in at the last session of the legislature and after considerable opposition especially on the part of the city members, it passed the house. It went into effect on May 1st.

Another change that went into effect the first of the month was the increased amusement tax, which chiefly affected the highest priced tickets. The participants of the play are all residents of Millar, and since the play was given in that town a few weeks ago the residents of that district are insisting that they be given another opportunity of hearing it. Further particulars will be given next week, but in the meantime reserve May 17th for this play.

### Wetaskiwin Creamery Factory to be Built

The increased tax on insurance premiums will now make the statements have gone out to the insurance companies. The increased tax on capital of corporations is not assessable till next January 1.

### What Happened to Jones?

This side splitting, laugh provoking comedy will be presented in Angus Theatre on Wednesday evening, May 17th, under the auspices of the Peace Lodge. The comedy is to be put on to a most enjoyable entertainment. The participants of the play are all residents of Millar, and since the play was given in that town a few weeks ago the residents of that district are insisting that they be given another opportunity of hearing it. Further particulars will be given next week, but in the meantime reserve May 17th for this play.

### Twin Eggs Latest Leghorn Product

What can only be described as a freak of nature was taken to the Calgary Herald offices on Tuesday last by Mrs. H. C. R. Walker, Criterion apartment. Friday evening of this week from 8 to 10 p.m. A collection will be taken to apply on the purchase of new music. Everybody cordially invited.

### ASSINIBOINE RIVER IS UP OVER BANKS NEAR BRANDON; HOMES ARE FLOODED

Brandon, May 2.—The Assiniboine river has overflowed its banks and flat lands adjoining the river in many districts have been flooded. The Brandon flats are flooded, and many families have been forced to leave their homes, and are now temporarily surrounded by water. Flat boats, rafts, etc., are being used this morning to gain entrance to some homes.

The river is continuing to rise and since Monday morning it has risen about a foot and since midnight about six inches, while at Komay the river rose 13 1/2 inches during the night. At Oakdale, the river is the highest it has been since 1904, and a bridge has been partly washed away.

Newly seeded fields have been flooded, but if the water recedes rapidly no harm is expected to result. Some damage however, if it continues to stay on the land, may result, as it will sour the grain.

Alberta creamery butter in 1921 at one of the largest exhibitions, secured half the awards, 167 out of 324 prizes; of 1861 points Alberta secured 365 or 51.8 per cent. In the 1920 All-Canada competition Alberta secured first, second and third prizes,

## OBITUARY PETER KUFFLER

There passed away at the home of his son Adolph Kuffler, Spirit River district, on April 30th, Peter Kuffler, at the advanced age of eighty-seven years. He was a native of Germany and was one of the pioneer settlers of the Wetaskiwin district. He leaves to mourn his loss a widow and one son, Adolph, besides a large circle of friends and acquaintances.

The funeral took place on Tuesday, the interment being in the Brightview cemetery.

### PRODUCE DEALERS MUST GET PERMIT BEFORE JULY 1ST

After the end of June all produce merchants in the province of Alberta must be licensed, in accordance with the legislation passed at the last session of the legislature.

According to the Produce Merchants Act of 1922, all produce merchants must register, and obtain a license from the department of agriculture at Edmonton, application forms for which will be available from the department, and the application will require the approval of the minister of agriculture.

The act does not apply to any person bonded under the Canada Grain Act or the Live Stock and Live Stock Products Act, 1917, in respect of the transaction of any business, covered by a bond given under the provisions of either of such acts, nor to any retail merchant in respect of the transaction of his ordinary business as such.

When a deal is not done on the part of the producer, the transaction of any business, covered by a bond given under the provisions of either of such acts, nor to any retail merchant in respect of the transaction of his ordinary business as such.

### ODDFELLOWS' ANNIVERSARY HELD AT PONOKA

The Oddfellows and Rebekahs of Wetaskiwin went to Ponoka on Sunday afternoon to join the sisters and brothers of Millar and Ponoka in a celebration of the 50th anniversary of the lodges.

When sealing in the north is pretty well along, and it is estimated that over half the wheat crop is in. The ground is very dry and the present rain is very welcome, as more will be needed before the ground will allow to put in crops. No oats are being sown as yet in the north.

### HEAVY FOREST FIRES RAGING IN BIG TIMBER

Fanned by the high winds will pass for a few days serious forest fires are burning in the big timber berths in the vicinity of Jasper and in the Jasper Park area.

Members of the forest service and sawmill employees are fighting the flames, but the fire is not yet under control and much valuable timber is in danger of being burned.

### HEAVY RAINS IN SOUTH ALBERTA

Heavy rains were general in southern Alberta on Thursday night and Friday morning of last week, according to reports received in Calgary. There is some seeping reported in the south on the high ground in the districts where the rainfall was not heavy.

The Catholic Women's League will hold a tea, and sale of food, fancy aunts house, plants, and garden plants, etc., on Saturday, May 20th, 1922.

### MANY JOBS UNFILLED END OF DAY MONDAY AT CAGARY

Calgary, May 1.—One hundred and eight orders for men were unfilled in Calgary last night after labor bureau officials had transferred all orders from northern districts to the Edmonton office of the bureau. While there are many hundreds of men out of work here, there is practically no response from them. They will not work for \$4 a day and \$10 a week.

G. Gifford of the bureau, farm hand division, was unable yesterday to secure 12 men he needed to work on farms. He offered transportation and \$4 a month. Many of the unemployed are members of the central council of unemployed. Yesterday they put a sign in their office window which reads "One Big Union branch."

### BORN

DURANT—In Wetaskiwin, on the 25th ult., to Mr. and Mrs. R. Durant, a son.

FRENCH—In Wetaskiwin, on the 1st ult., to Mr. and Mrs. H. R. French a daughter (stillborn).

MAXSON—At Ponoka, on the 3rd inst., to Mr. and Mrs. W. R. Maxson, a daughter.

BODENHORN—At Wang on the 1st inst., to Mr. and Mrs. Bodenhorn, a son.

### PROPERTY SALES

Frank Montgomery has purchased the residence of N. J. L. Berger, at 1005 10th Street, Brandon, and will take up residence there.

One of the best homes in the city.

Another real estate deal put through this week was the sale of the T. L. Walker property on Lorne street to a son of Mr. and Mrs. Walker.

### PRESENTMENT OF DANGER SAVES FAMILY FROM DEATH IN FAR NORTH COUNTRY

Peace River, April 29.—A presentment of impending tragedy saved a mother and her seven children from certain death beneath the grinding ice of the Peace River, near the village of Smoky River, early on Sunday morning, according to news received yesterday. Mr. and Mrs. William Green, of West Peace River, along with their seven children, all under eleven years of age, were planning to float down the Peace River behind the ice to start this spring, making the trip down to Great Slave Lake on a large raft, with its cabin and \$2,000 worth of settler's effect was built on the ice in the stream at the junction of the Peace and Smoky rivers.

The raft, with its cabin and \$2,000

worth of settler's effect, was built on the ice in the stream at the junction of the Peace and Smoky rivers.

Peace River is of record dimensions.

### APPRECIATION

The matron and staff of the Wetaskiwin hospital wish to express their appreciation to the Women's Institute of Angus River, and to Mr. Krueger for the generous donation made to the hospital a few days ago.

PONOKA IS TO HAVE  
AMATEUR BASEBALL

A meeting of the Ponoka Baseball Club was held in the town hall on Friday evening. There was a full attendance, and after some discussion it was voted to have a team this year. This, of course will mean re-organization of the team, and it is expected that a call will be made on the juniors. The following officers were elected for the season—President, H. Smillie; vice-president, A. C. Graham, secretary, A. Steenom; manager, Dan Bush—Herron.

A special reservation in Edmonton cemetery for burial of members of local battalions has been made by the directors of the company; the area is to include space for 552 graves, and in the centre will be placed a "cross of sacrifice."

**Railway News in Brief**

Forsberg, Alta.—Word was received by C. J. Smyth, convenor of the board of trade railway committee, that the work is being done on the C. P. line between Lethbridge and Bullock, and that a gang of men is employed on the line to lay the trestle work on the bridge a little north of Lethbridge.

Johns, Track work on the C. P. line and the line from Lethbridge out the New Brunswick District is commencing now, General Superintendent. He said that in addition to the replacement of worn-out ties, there would be laid on the main lines up to 100 feet of steel and that up to 80 miles of rails will be laid by heavy steel on the branch lines, including the Shore Line.

For Williams, over half a million dollars will be spent by the Canadian Pacific Railway this summer upon improvements to their big coal docks at Island Number One, at the main entrance to the port. Heretofore the 1922 estimates indicated that an appropriation of \$100,000 was required for the start, sometime during the end of the present season. The improvements will consist of a huge storing and distribution plant, the enlargement of the coal handling and storage facilities of the docks.

St. John—While crossing from Gothenburg to London, in order to join the Canadian Pacific liner "Metropole" at Liverpool, a Swede named Mr. Peter Hendriksen, a widower, fell in love with Mrs. Margaret, a widow, who was accompanied by her two daughters, who are proceeding to Canada.

Within twenty-four hours of arriving in London, a marriage license was obtained and the marriage took place at the Brownlow-hill Registry Office. Mrs. Hendriksen's age was 35, and Mr. Hendriksen 50.

The honeymoon was spent crossing the Atlantic on the "Metropole" to the United States, Minnesota, Manitoba, where the bridegroom has a farm. Both bride and bridegroom are of Swedish nationality.

Vancouver—Mr. H. J. Loughran, who is in charge of the office responsible for information regarding lumber, and general conditions in British Columbia and the prairies.

Salaries in 120 parties of whom eighty were single men and the remainder men with families. About 1200 were in lumber yards at an average price of \$18 per acre, about \$2,376,000 of property being sold.

During the past two months the company has been advertising Columbia Valley lands, as a result of which a number of inquiries have been received and forty applications for land made.

With the intention of still further advertising the St. Lawrence route to Europe the Canadian Pacific Railway at Vancouver, has instituted a greatly improved service. In the matter of train connections of Canadian Pacific trains with Canadian Pacific steamers, at the ports of Montreal and Quebec, a new system is being used which is made possible by the joint management of railway and ocean lines, passengers from Victoria, San Francisco and the intermediate points bound for Europe are practically guaranteed an uninterrupted journey to their destination.

For some years Canadian Pacific steamships have been sailing at 10 knots per hour, but now the new afternoon trains from Detroit and Toronto, and by night trains from Hamilton and Toronto (Yonge Street Station) will be held two hours, so that the passengers can embark at that point. If the delay is longer, the steamship will proceed to Quebec and there await the arrival of the train. The fort will be made to have these trains connect with the steamship at Montreal, so that the passengers are delayed in arrival at Montreal, the steamship will be held two hours, so that the passengers can embark at that point.

If the delay is longer, the steamship will proceed to Quebec and there await the arrival of the train. The fort will be made to have these trains connect with the steamship at Montreal, so that the passengers are delayed in arrival at Montreal, the steamship will be held two hours, so that the passengers can embark at that point. If the delay is longer, the steamship will proceed to Quebec and there await the arrival of the train. The fort will be made to have these trains connect with the steamship at Montreal, so that the passengers are delayed in arrival at Montreal, the steamship will be held two hours, so that the passengers can embark at that point.

During the winter the regime it was an outcast of the colony. English raiders, like Rogers and Schuyler, had to make a long and difficult portation from Montreal to Quebec. The Indians, however, like aux Noix were on guard! It sprang into prominence in 1759 when it received the British forces under General Wolfe, before Amherst's superior forces around Lake Champlain. In 1809 Amherst wrote of this fort: "The fort is a small one, but it is erected such a number of works at its entrance to the steamship dock at the latter port.

Annual General Assembly  
Of Presbyterian Church  
Meets in Winnipeg June 7

April, 1930—The annual meeting of the Presbyterian general assembly will open in Winnipeg on Wednesday, June 7, for a week or more. The general assembly is the denominational gathering will be the forty-eighth in the history of the church, dating from the time of its first meetings in 1815, and will be the fourth the 1922 session will not in Winnipeg.

The Presbyterian church has a program this year that involves a financial turnover in a year of \$11,000,000, it has 2,000 ministers and 4,000 congregations. Sunday schools, with an enrollment of 220,000 officers and teachers. When there is added the work of 225 missionaries, in China, Korea, Formosa and the British West Indies, it will be seen that the program of this denomination outshines one, especially when it is realized that modern mission work is not confined to evangelism, although that is basic, but covers medical education, and phases of education, work of high-class.

The reports of these various activities, as well as the messages from many missionaries on furlough, will, in themselves, provide a long agenda.

Chief among the subjects for report and discussion naturally comes church union, following the vote of the general assembly of 1921, and further confirming the organic amalgamation of the Presbyterian, Methodist and Congregationalist churches. Since that time, the committee of unions, representing the three denominations, has met and passed the following resolution: That a standing committee on law and legislation be appointed to consider and report on the legislation necessary to give effect to the union of the negotiating churches and to have prepared copies of all proposed bills to be submitted to a further meeting of this committee, and thereafter to the appropriate courts of the negotiating churches, and further that it be recommended to the legislatures concerned to have power to secure the necessary legal assistance.

The above represents the existing

situation. A report from the union committee representing the three denominations, as well as from the Presbyterian committee, was submitted to the general assembly of 1921, will in all probability be submitted and form the basis for further discussion and action. What these reports will cover can only be conjectured. The main union committee will probably bring in a report of progress as to the information gathered thus far bearing on the prospective legislation. It is hardly likely that committee will be able to agree on a program, and the legislative aspects of what will undoubtedly be a complicated question, with many ramifications both legislative and legal.

Apart from or in addition to any formal reports of progress, there is likely to be a renewal of the keen discussions of former years on the main question. Those opposed to organic union, though in the minority, maintain their organization for that reason. Those who are in favor of union, though in the majority, will be interested in some of the arguments presented.

... In the meantime, the establishment of so-called union churches is going on in the west and in parts of Ontario, now numbering several hundred. These are being carried on three different bases, according to local needs and decisions, and the arrangements in most of these cases appear to be working well.

## OBEDIENT WILLIE

The teacher wanted some plums in order to give an object lesson, so calling to one of the small boys he gave him ten cents and dispatched him to the fruit stand down on the corner.

"Before you buy the plums, Willie," he cautioned, "you had better pitch one or two to make sure they are ripe."

Willie flitted away. Soon he came back and smugly put the bag on the teacher, taking up the bag. "Did you pitch one or two, as I told you to do?"

"Did I? I pinched the whole bagful, and here's your ten cents!"

Not A Trace of  
Rheumatism or  
Dyspepsia Left

Vancouver Man says He is  
so Wonderfully Restored,  
He is Glad to Publicly En-  
dorse Tanlac.

"Making a public statement is something that is new to me, but Tanlac has helped me so much I am willing to go on record with all the rest who are praising it," said Chas. J. MacInnis, 6031 St. South Vancouver, B.C., a known invalid, especially

after a severe attack of rheumatism. "I suffered the worst sort of indigestion. After meals I would beat up with gas which pressed on my heart until it would race like an engine. This spells left me very weak and I would have awful headaches.

"I read a number of statements regarding Tanlac and decided to try it, and it is simply amazing how it has built me up. I have completely recovered my appetite, my heart beats normally and the rheumatism has disappeared. Everybody should know about Tanlac."

Tanlac is sold by all good druggists.

WHERE A POUND  
IS NOT A POUND

If a dealer were to weigh out a ton of coal exactly and ship it by wagon to the top of a mountain 10,000 feet high, the buyer on the mountain top weighing it on his arrival, would be paid a bit short—even though none of it were spilled out on the way up.

"Oh, thank you, Willie," said the teacher, taking up the bag. "Did you pitch one or two, as I told you to do?" "Did I? I pinched the whole bagful, and here's your ten cents!"

Willie, the recipient, on getting back to the foot of the mountain, would find if his scales were delicately correct,

that his gold weighed rather more than an ounce.

Things lose weight as they go up. They lose at the rate of a millionth of a pound every mile, and every foot of ascent.

The reason why is not easily understood; it is because the force of gravity lessens with altitude. But it should be made clear that the coal, and the gold likewise, would have to be weighed by a spring balance in order to show the decrease or increase in weight. A pan balance shows only relative weight; the spring balance gives the absolute weight.

A chunk of iron that weighs a pound in Toronto, will weigh more in Vancouver, and will weigh the weight of anything is greater by one-hundredth at the North Pole—or at the South Pole—than at the Equator. That is because it is thirteen miles nearer to the centre of the Earth and also for the reason that at the Equator, where the revolution of the globe carries its crust around at the speed of a thousand miles an hour, centrifugal force tends to throw things off, thereby rendering them in effect lighter.

To prove this proposition in actual practice one would have to use a spring balance, or the reason I have already given. And it is obvious that a maker of such balances, if he would have them exact, should construct them with reference to the latitudes in which they are to be employed.

If an enterprising citizen of Rio de Janeiro were to make a trip to Arctic Alaska and buy gold dust, with a spring balance, he would find when he got back that he had less of the yellow stuff than he paid for,

**BUSINESS SLOWLY  
SURELY, TURNING  
FACE TO THE SUN**

Winnipeg, May 1—The business conditions throughout Canada are slowly but surely getting better, as indicated by the weekly trade report of the Canadian Credit Men's Trust Association, issued from its head office here Saturday.

Montreal, Ontario and other east

ern reports are all in line. Reports from wholesalers, including dry goods, hardware, ladies' and men's wear, machinery, etc., are encouraging, trade conditions found to be better during the past two weeks, the improvements being held in almost all lines. Boots and shoes are still looking for improvement.

Winnipeg and the west have task-work, mining, lumbering, bushing ahead for a better summer and fall, the spring improvement having been too slow to please many. Seeding is under way throughout Manitoba, and with ideal soil and climate conditions, the crop outlook, so far as it is safe to predict at this period looks exceedingly favorable. Wholesalers therefore, building their hopes on the crop situation, are optimistic as to summer and fall business. Retailers are also optimistic, especially in larger cities, smaller country towns generally affected by farmers being busy on the land.

## VULCANIZING

After vulcanizing by us your tires will look like new, and the cost of vulcanizing is only a small part of the cost of new ones. Now is the time, before you are too far gone.

## MILLET

The Millet Produce Co. opened in the Evans Jewelry store on May 1st. Flour is to be carried and the stand will be used as a cream depot for shipment of cream.

The baseball boys are getting ready for the coming season.

A. P. Mitchell has returned from Calgarie.

The farmers around Millet are busy on the land.

There is a report on the street that the drillers at the oil well have struck gas.

Owing to the illness of Rev. Hughson, the 100th anniversary address in the Methodist church at Ponoka, was given in a very creditable manner by Rev. W. H. Irwin.

The home services were simple and appropriately conducted by Mr. A. J. Heywood, B.A.

The pastor hopes to be able to resume his duties at the next divine service.

Services will be held on Sunday, May 7th as follows: Lurch 11:30 a.m. and Sunday school at 1:30 p.m.; Hillside at 3 p.m. and Sunday school at 4:30 p.m.; Millet service at 7:30 p.m.

The evening service will be a special baptism and reception service. All parents desiring children baptised will kindly notify pastor and this service will precede the regular service.

Rev. Hughson wishes to thank the many kind friends who have ministered so abundantly to him during his recent illness.

## W.C.T.U.

D. J. C. Houston of Charlottetown, in an address before the Caledonians, gives some reasons why it is so difficult to obtain intelligent and unbiased opinions of liquor control, which is under consideration by the people.

In the first place people have apparently always liked the effect and there are still a few, who, without asking any questions, regard it as a good creature of God, and this fact combined with its commercial value and the attitude of drinkers, moderate and immoderate, give many phases to the liquor question. He says that although many of us do not regard drinking as a sin, we do not consider it a good thing.

He says that the first thing which should be done is to get the public to realize that there is a difference between science and common sense have taken hold of it and here the alcohol problem will surely be eventually solved. He treats it as a food, a drug and a poison.

Alcohol as a food—proteins act as a fuel to supply energy and can replace worn out tissues. Fats and carbohydrates also act as fuel to supply energy but are not used up in the body as a reserve in case of emergency.

Alcohol can neither supply the material needed for repair nor can it be stored up as a reserve but we know it is used as a fuel and during burning supplies a certain amount of energy while it is burning less fats and carbohydrates are being used. In this way alcohol may be regarded as a food. In very sick people it quickly alcohol in the blood. "Alcohol is a food suitable only for emergencies."

"In the light of our knowledge of how alcohol acts in the body there can be no question that its habitual use by the worker as a substitute for food or in the belief that it gives a fillip to energy is physiologically unsound."

Very substantial reductions have been made in tractors offered for sale in western Canada this year, amounting in some cases to as much as \$270 plus extra equipment, such as plows.

**MILLET, BIGSTON, 459**

Public Notice is hereby given that there has been introduced in the council of the M.D. of Bigstone, 458, a by-law of which the following is a short synopsis:

Domestic animals shall be prohibited from running at large in accordance with the following schedule:

Class of animal Period of prohibition Area of jurisdiction

1. All domestic year Township 45-25, 46-25, 47-25, 48-25, 49-25, 50-25, 51-25, 52-25, 53-25, 54-25, 55-25, 56-25, 57-25, 58-25, 59-25, 60-25, 61-25, 62-25, 63-25, 64-25, 65-25, 66-25, 67-25, 68-25, 69-25, 70-25, 71-25, 72-25, 73-25, 74-25, 75-25, 76-25, 77-25, 78-25, 79-25, 80-25, 81-25, 82-25, 83-25, 84-25, 85-25, 86-25, 87-25, 88-25, 89-25, 90-25, 91-25, 92-25, 93-25, 94-25, 95-25, 96-25, RHEUMATISM'S  
Greatest Enemy

Verno Medical Compound  
For the sake of those suffering  
from rheumatism, I write this to  
say that I have been affected with  
this serious trouble for over ten  
years. By the grace of God I was bed  
for twelve weeks, and this last  
spring was bed for seven. I suf  
fered day and night and was given up  
by my physician as lost. I was in  
the city to die. I had also tried  
many remedies which had been re  
commended to me, with no success.  
By the grace of God I was bed  
and am about me and he cal  
led, and thanks be to that day when  
he did so. I have never been so  
well since. Any person  
to do so I would be glad to have  
them call and see me and I would  
gladly tell them how I suffered  
and the benefit I received from  
Verno.

Miss Agnes Brown  
12220 88th St., Edmonton  
If you have rheumatism, take  
Verno and stay with it.

## Edmonton Weekly News Bulletin

## Director of Extension Work

Announcement has been made by the Hon. Geo. Hoadley, minister of agriculture, of the appointment of Miss Jessie McMillan, late of Aberdeen, Scotland, and more recently secretary of the ocean travelling staff of the dominion council of the Y.W.C.A., to be the new director of the extension work for women's societies under the provisions of the new act.

In addition, Miss McMillan

culture on the work that had been done, and urged the importance of better feeling of livestock and improvement of quality to get the fullest possible results from the market.

The feeding steers purchased last week by the university were sold the past week on the Edmonton stock yards for very high prices. Some 70 steers were purchased in the first

quarter at an average of \$3.22, and were sold at an average of \$4.00, the average in weight about 1,240 lbs.

Fifty-six of them sold at 7 cents, six at 8½ cents, and three at 5 cents. The marketing costs totalled 23 cents cwt.

The overhead cost of feeding was not more than \$100 for the lot. Gains

varied from \$1.70 per head down to

\$2.00 per head on the poorer steers.

The advisory council of scientific research of the dominion has made

extensive investigations for "during

the coming season. One party will

undertake an extensive geological

survey of the foothill country to ascer  
tain existence of coal and oil deposits.

Another party will make an investiga  
tion of the iron deposits on Lake Athabasca.

The party in charge will consist one

of the best specialists in Montreal.

He said I must go to the hospital,

have an ulcer cut out of my

stomach and gall stones removed. I

was then 74 years old.

"Then, I began to take "Fruit-a-tives."

I found they helped me a lot, and I

still take them occasionally, and

when I have a cold, I often ask my

friends to ask me what I have done to

make myself so well. I am gaining

in weight and enjoying myself very much."

H. E. EDWARDS

tion in regard to country resources  
and opportunities to secure land by  
purchase or homestead for the country  
traversed by the Lacombe North  
Western Railway extension northward  
towards Edmonton. Call Phone 256,  
P.O. Box 252, Wetaskiwin, A.C. Bun-  
ney. 5-21a.

The Toronto wage scale for brick-  
layers and stone masons of Toronto is  
now at 93c cents an hour, a cut of  
41 cents from last year's scale, by  
the findings of the board of arbitration  
which was announced Thursday.
